Professional Summary

Former mathematics teacher returning to the code. After struggling to survive on a teacher's wages for the past 5 years or so, I've decided that it's time for a career change. Not an easy thing to do at the age of 35, but it's a necessity. Being a teacher has taught me a lot about myself and about others. I am a great communicator, speaker and conveyor of information. A curious person by nature, I love to learn and figure out how things work. Professionally, I'm somewhat of a jack of all trades. This ends up serving me quite well, as I'm able to draw on a plethora of past experiences and knowledge to solve problems in the present.

Coding Skills

- HTML, CSS, JS
- ReactJS
- Sassy CSS, Flexbox
- Node.js, NPM, etc
